

SLITE TECHNOLOGIES

PROJECT CONCEPTS:

1. Mobile Technology using GPRS, GSM, Bluetooth, GPS technology
2. Image processing
3. Data Mining
4. Networking
5. System security
6. Multimedia
7. Robotics control
8. Web Application
9. User Identification Security System: IRIS, Face, Finger, Signature
10. Communication Engineering

SLITE TECHNOLOGIES

11. Wireless Technology

12. MANAET

13. Simulation Developments

14. Personal Security and Safety

15. Bio- Medical System

16. Embedded System

17. GPS Technolgy

18. RFID Technology

19. ARM Processor

20. Banking Security

21. Motion Detection

SLITE TECHNOLOGIES

22. Signature Verification

23. Face Recognition

24. Finger Print Recognition

25. IRIS Recognition

26. Server Control

27. Network Control

28. Spy Software

29.
